

IEP Meeting Facilitation Training

The Facilitated IEP (FIEP) Workshop is the foundation for Key2Ed's facilitation program. Thousands of educators have completed the Key2Ed FIEP workshops nationwide.

Key2Ed developed individualized education program (IEP) meeting facilitation in the 90s. Today, Key2Ed provides an intense training in conflict prevention and IEP Meeting Facilitation for school districts throughout the country. This training concentrates on providing the specific tools and techniques for IEP meeting participants to improve positive communication, reduce conflict, and focus the meeting on the needs of the student.

Participants learn to:

- Guide IEP teams to agree on appropriate, compliant, and effective IEPs
- Channel communication to building mutual understanding based on respect
- Create agreements based on full participation from all members
- Generate informed discussions
- Prevent, reduce, and resolve conflict

These instructional outcomes are all delivered in a hands-on, practical application workshop that promotes rapid assimilation and long-term retention of concepts.

This workshop prepares participants to successfully conduct effective IEP meetings. The Key2Ed Facilitated IEP training will provide the tools and techniques to participants in how to manage/prevent conflict while ensuring the meeting content and process focuses first and foremost on the needs of the student.

Participants will practice facilitation in IEP meeting simulations based on real-life IEP meeting situations so that they have the chance to practice the skills presented in a safe learning environment, and are prepared to go out and implement these skills the very next day.
