

# CARLA CUMBLAD, M.S.ED, E.D.D.

## SENIOR CONSULTANT

---

During these teaching experiences, her classrooms were model demonstration and experimental classrooms for several federal U.S. Department of Education Programs. Dr. Cumblad has taught at Northern Illinois University and Aurora University, focusing on behavior management/analysis, effective methods and inclusion of individuals with disabilities in general education environments.

Resides in Illinois

Carla has been very fortunate to have lots of different types of experiences with students, families, and educators. She has learned so much from those opportunities and is so happy to be able to share them with others. As Helen Keller said, "Alone we can do so little; together we can do so much."

"Hilarious, engaging, I really wanted to listen to what she had to say. Clearly experienced and someone I trusted to provide accurate information." -E.W, Illinois
